NOTE: The following definition is used for the term young adolescent(s) throughout this standards document:

*The Middle Level Program interprets all young adolescents to be inclusive, comprising students of diverse ethnicity, race, language, religion, socioeconomic status, gender, sexual orientation, regional or geographic origin, and those with exceptional learning needs.*

**Standard 1: Young Adolescent Development**

*Middle level teacher candidates understand and apply the major concepts, principles, theories, and research related to young adolescent development that support student development and learning.*

The **emergent** middle grades teacher candidate:

1. Acknowledges young adolescence as a distinct and critical developmental stage in human development. (adolescent development)
2. Understands that individual and groups of young adolescents exhibit a wide range of physical (including sexual), cognitive-intellectual, moral, psychological, and social-emotional development and that these areas of development are intertwined. (individual differences)
3. Recognizes that young adolescents desire positive relationships with caring adults and opportunities for informal interactions and conversations with them. (adult interactions)
4. Recognizes the importance of activities fostering young adolescents’ interpersonal, community, and societal responsibilities. (adolescents and responsibility)
5. Recognizes that early adolescence is a crucial period for developing healthy personal habits. (health and adolescents)
6. Recognizes the importance of understanding and valuing their students’ families, including their cultural backgrounds; academic expectations; family structures, rules, and schedules; and values and priorities. (family)

The **developing** middle grades teacher candidate:

1. Understands that the academic success of young adolescents is highly dependent upon learning opportunities where their other developmental needs being met. (adolescent development and responsive environment)
2. Understands developmentally responsive (intellectual, physical, social, emotional, and moral) approaches to instruction, classroom management, and other interactions with young adolescents and articulates (orally and in writing) major concepts, principles, theories, and research related to young adolescent development and learning and articulates (orally and in writing) major concepts, principles, theories, and research related to young adolescent development and learning. (adolescent development and responsive instruction)
3. Develops young adolescent activities related to their interpersonal, community, and societal responsibilities. (adolescents and responsibility)
4. Analyzes the effect of societal factors and changes which impact the healthy development of young adolescents. (adolescents and health)
5. Develops plans to establish mutually respectful relationships with young adolescents. (adult relationships)
6. Understands that positive, productive learning environments where individual differences are respected and supported and individual potential is encouraged are central to meeting adolescents’ needs. (individual differences)
7. Develops plans to collaborate with colleagues, families, and community partners for the benefit of young adolescents. (family)

The **proficient** middle grades teacher candidate:

1. Creates learning opportunities that reflect an understanding of the development of young adolescent learners where differences are respected and supported and individual potential is encouraged. (adolescent development and responsive environment)
2. Uses developmentally responsive (intellectual, physical, social, emotional, and moral) instructional strategies. (adolescent development and responsive instruction)
3. Engages young adolescents in activities related to their interpersonal, community, and societal responsibilities. (adolescents and responsibility)
4. Evaluates the effect of societal changes, including the portrayal of young adolescents in the media, which impact the healthy development of young adolescents. (adolescent health)
5. Establishes mutually respectful relationships with young adolescents which support their intellectual, ethical, and social growth and acts as an advocate for individuals and groups of students. (adult relationships)
6. Creates positive, productive learning environments where individual differences are respected and supported and individual potential is encouraged. (individual differences)
7. Collaborates with colleagues, families, and community partners for the benefit of young adolescents. (family)

**Glossary Terms:** young adolescent, early adolescence; development; developmentally responsive; advocate, advocacy

**Standard 2: Middle Grades Philosophy and School Organization**

*Middle level teacher candidates understand and apply the philosophical foundations of developmentally responsive middle level programs and schools and the organizational structures that support young adolescent development.*

The **emerging** middle grades candidate:

1. Understands the philosophical foundations that support developmentally responsive and socially equitable programs for all young adolescents. (NC)(middle school philosophy)
2. Understands the rationale and characteristic components of developmentally responsive middle level programs and schools. (NC)(middle school organizations)

The **developing** middle grades teacher candidate:

1. Supports middle level organizational components and structures that maximize student learning. (ms organization)
2. Understands the concepts, principles, theories, and research underlying the philosophical and historical foundations of developmentally responsive middle level programs and schools. (middle level philosophy)
3. Works successfully as a member of a team. (teaming)
4. Understands and articulates best practices for the education of young adolescents in a variety of school organizational settings (e.g. K-8, 5-8, 7-12 organizational plans). (best practices)
5. Understands historical and contemporary models of schooling for young adolescents and the advantages and disadvantages of these models. (middle school models)
6. Understands responsive organizational structures that foster socially equitable educational practices and the responsibility of middle level programs and schools to be responsive to cultural and environmental factors of school communities. (equity)
7. Understands the need for school organizational features that promote young adolescent health and wellness. (health and wellness)

The **proficient** middle grades teacher candidate:

1. Applies the major concepts, principles, theories and research that reflect the philosophical foundations of developmentally responsive middle level programs and schools including
developmentally responsive practices, such as, teaming, advisory, and co-curricular activities. (middle level organization)

2. Applies understanding of the philosophical foundations of middle level education when making decisions about curriculum, instruction, and schooling. (middle level philosophy)

3. Works successfully as a member of an interdisciplinary team to maximize student learning. (teaming)

4. Uses best practices to maximize student learning in a variety of school organizational settings (e.g. K-8, 5-8, 7-12 organizational plans). (best practices)

5. Applies knowledge of the philosophical foundations of middle level education and historical and contemporary models of schooling for young adolescents in their classrooms, schools, and communities. (middle school models)

6. Advocates for developmentally responsive organizational structures that foster socially equitable educational practices. (equity)

7. Advocates for school organizational features that promote young adolescent health and wellness. (health and wellness)

Standard 3: Middle Grades Curriculum, Instruction, and Assessment

Middle level teacher candidates plan interdisciplinary curriculum based on core and elective curricula that are relevant, integrative, challenging, and exploratory. They understand and apply the major concepts, principles, theories, and research unique to effective middle level instruction and assessment, and they employ a variety of developmentally responsive strategies to meet the varying abilities and learning styles of all young adolescents.

The emergent middle grades teacher candidate:

1. Recognizes the range of approaches to curriculum development in the middle level including interdisciplinary curriculum that is relevant, inviting, challenging, integrative, and exploratory within an effective learning environment. (curriculum design)

2. Knows local, state, and national middle level curriculum standards (curriculum standards)
3. Acknowledges diverse student perspectives related to curriculum including knowledge of families, community and interconnections among cultures of the nation and world. (curriculum and diversity)

4. Articulates the relationship between student motivation and developmentally responsive practices in middle grades to meet diverse learners’ needs. (instruction and diversity)

5. Understands the importance of encourage higher order and critical thinking, inquiry, problem solving and communication in teaching young adolescents. (instruction and higher order thinking)

6. Defines 21st century life and career skills as including flexibility and adaptability, initiative and self-direction, social and cross-cultural skills, productivity and accountability, and leadership and responsibility (21st century instruction)

7. Knows multiple literacies as including information, media, technology, ICT (Information, Communications and Technology), health and wellness, civic, financial, economic, business and entrepreneurial (literacies and instruction)

8. Understands how to align instruction with student learning goals and standards. (assessment)

9. Explains the value of authentic performance assessments, both formative and summative incorporating contemporary tools and resources to identify students’ skills and abilities to maximize student learning (assessment)

10. Understands the importance of aligning assessments with standards and student learning goals. (assessment)

The developing middle grades teacher candidate:

1. Understands the concepts, process and importance of interdisciplinary planning that is relevant inviting, challenging, integrative, and exploratory within an effective learning environment. (curriculum design)

2. Develops instructional plans which exemplify local, state, and national middle level curriculum standards and their implications for instruction. (curriculum standards)

3. Develops with colleagues curriculum that allows for interpretation of knowledge and ideas from diverse perspectives including knowledge of families, community and interconnections among cultures of the nation and world in integrated ways. (instruction and diversity)

4. Plans lessons that seek to motivate diverse young adolescents through the use developmentally responsive, differentiated, data-based, instructional strategies, materials and resources. (instruction and diversity)

5. Incorporates instructional strategies into lesson plans that encourage higher order and critical thinking, inquiry, problem solving and communication (instruction and higher order thinking)

6. Articulates principles of middle level instruction and the middle school research base that supports them including those that utilize technology to advance young adolescent
learning, creativity and innovation in both face to face and virtual environments. (instruction and technology)

7. Plans lessons that motivate young adolescents to develop 21st century life and career skills including; flexibility and adaptability, initiative and self-direction, social and cross-cultural skills, productivity and accountability, and leadership and responsibility. (21st century instruction)

8. Weaves multiple literacies including information, media, technology, ICT (Information, Communications and Technology), health and wellness, civic, financial, economic, business and entrepreneurial skills into core subjects as they plan instruction. (literacies and instruction)

9. Selects and develops authentic performance assessments, both formative and summative, related to the unique learning needs of young adolescents incorporating contemporary tools and resources to maximize student learning. (assessment)

10. Designs assessments that align with standards and student learning goals which guides instructional decisions. (assessment)

The proficient middle grades teacher candidate:

1. Develops and implements relevant, inviting, challenging, integrative, and exploratory interdisciplinary curriculum within an effective learning environment that connects subject areas when planning. (curriculum design)

2. Demonstrates an in-depth understanding of the structure and knowledge of local, state, and national middle level curriculum standards and ways to assess the student knowledge reflected in those standards within their practice. (curriculum standards)

3. Designs and implements with colleagues curriculum in ways that encourage all young adolescents to observe, question, and interpret knowledge and ideas from diverse perspectives including knowledge of families, community and interconnections among cultures of the nation and world in integrated ways. (curriculum and diversity)

4. Motivates diverse young adolescents and facilitates their learning through the use of a wide variety of developmentally responsive, differentiated, data based, instructional strategies, materials and resources including those that utilize technology in both face to face and virtual environments. (instruction and diversity)

5. Incorporates instructional strategies that encourage higher order and critical thinking, inquiry, problem solving and communication to advance young adolescent learning, creativity and innovation. (instruction and higher order thinking)

6. Utilizes a range of instructional methods and materials which illustrate the principles of middle level instruction and the middle school research base that supports them including those that utilize technology to advance young adolescent learning, creativity and innovation in both face to face and virtual environment. (instruction and technology).
7. Motivates all young adolescents to develop 21st century life and career skills including; flexibility and adaptability, initiative and self-direction, social and cross-cultural skills, productivity and accountability, and leadership and responsibility. (21st century instruction)

8. Utilizes multiple literacies including information, media, technology, ICT (Information, Communications and Technology), health and wellness, civic, financial, economic, business and entrepreneurial skills into core subjects within instruction. (literacies and instruction)

9. Selects, develops and applies a balance of authentic performance assessments, both formative and summative, related to the unique learning needs of all young adolescents through the appropriate use of data to develop classroom and instructional plans. (assessment)

10. Develops and uses assessments that reflect standards, student learning goals and depth of understanding to guide instructional decisions. (assessment)

Standard 5: Middle Grades Professional Roles

Middle grades teacher candidates understand the complexity of teaching young adolescents and engage in practices and behaviors that develop their competence as professionals and leaders in the field of middle grades education within a global community.

The emerging middle grades candidate:

1. Understands the need to advocate for developmentally appropriate classrooms, schools, programs, and practices and to uphold high professional and ethical standards. (leader and advocate for middle grades)
2. Understands that professional responsibilities such as serving as an advisor, serving on committees and in parent, community and professional organizations extends beyond the classroom. (prof. roles beyond classroom)
3. Knows that teachers work in a global, diverse, and digital society. (diversity)
4. Understands the importance of lifelong learning and reflective practice for the continuous improvement of professional practice to ensure successful young adolescent learning. (professional learning)
5. Understands the role of the middle grades teacher in establishing respectful, productive, and collaborative relationships with family and community members. (families and community)
6. Understands that middle level teachers collaborate as interdisciplinary team members and work with colleagues throughout the building. (teaming/collaboration)
7. Examines the role of technology systems in collaboration and communication with students, peers, parents and community members. (technology)
8. Articulates ways to develop leadership qualities in young adolescents and encourage their participation in community activities and services. (student leaders)
9. Realizes that teachers work within school accountability systems including state mandated assessments, Professional Development Plans, Teacher Evaluation Instruments and School Improvement Plans.

The developing middle grades teacher candidate:

1. Develops plans to advocate for developmentally appropriate classrooms, programs and practices that are characterized by high quality content and high expectations for all
young adolescents while adhering to high professional and ethical standards. (leader and advocate for middle grades)

2. Understands how and why professional responsibilities such as serving as an advisor, serving on committees and in parent, community and professional organizations extend beyond the classroom and acts as a positive role model for youth in interactions, affiliations, and negotiations with others. (professional roles beyond classroom)

3. Understands the necessary knowledge, skills, and work processes representative of a professional in a global and digital society and articulates respect for the diversity inherent in middle school classrooms and schools. (diversity)

4. Develops plans and habits necessary to engage in lifelong learning and reflective practices that improve professional practice including the analysis of young adolescent learning. (prof. learning)

5. Engages in respectful, productive, and collaborative relationships with family and community members that improve student learning and well-being including effective communication and advocacy. (families and community)

6. Understands how to successfully act as a member of an interdisciplinary team and with colleagues throughout the building to ensure a positive total learning environment. (teaming/collaboration)

7. Uses technology systems knowledge to collaborate and communicate with students, peers, parents and community members. (technology)

8. Incorporates the development of leadership qualities and participation in community activities and services within plans to work with young adolescents. (student leaders)

9. Understands and adheres to school accountability systems including state mandated assessments, Professional Development Plans, Teacher Evaluation Instruments and School Improvement Plans.

The proficient middle grades teacher candidate:

1. Serves as a courageous, collaborative leader in the middle grades classroom, the school, and the community by advocating for developmentally appropriate classrooms, schools, programs, and practices that are characterized by high content and high expectations for all young adolescents while adhering to high professional and ethical standards. (leader and advocate for middle grades)

2. Serves as a role model through engaging in professional responsibilities such as serving as an advisor, serving on committees and in parent, community and professional organizations and acts as a positive role model for youth in interactions, affiliations, and negotiations with others beyond the classroom. (professional roles beyond classroom)

3. Exhibits knowledge, skills, and work processes representative of an innovative professional in a global and digital society while modeling dedication and respect for the diversity inherent in middle school classrooms and schools. (diversity)

4. Models lifelong learning and reflective practice to continuously improve professional practice through the analysis of student learning, using that knowledge to reflect on, develop and refine professional growth as a member of the larger complex middle level learning community. (professional learning)

5. Establishes respectful, productive, and collaborative relationships with family and community members that improve student learning and well-being including effective communication and advocacy. (families and community)
6. Works successfully as a member of an interdisciplinary team and with colleagues throughout the building such as administrators and the support staff to ensure a positive total learning environment. (teaming/collaboration)

7. Demonstrates fluency in technology systems and the transfer of current knowledge through collaboration and communication with students, peers, parents and community members and using a variety of digital-age media and formats to support student success and innovation. (technology)

8. Promotes leadership qualities in all young adolescents and encourages young adolescents to participate in community activities and services that contribute to their learning and the welfare of the greater community. (student leaders)

9. Uses relevant data and information gathered from school accountability systems including state mandated assessments, Professional Development Plans, Teacher Evaluation Instruments and School Improvement Plans to impact student learning.
